

Headboards, footboards and decors

Pleasing shapes and colours

Headboards and footboards – personalised charm for our care beds

For many residents, the care bed is a home in which they spend most of their time. So having an appealing bed is important to them. Stieglmeyer headboards and footboards offer numerous options for tailoring care beds to individual tastes. Elegant straight lines or pleasing curves create an individual look. Handle bars, in different shapes, make it easier to move the bed and give the resident support when standing up in the room.

Nobla – the elegant headboard in 3 sizes

Our Nobla head/footboard is the ideal choice for those who prefer an elegant look. It comes in three heights: The tall Nobla is particularly opulent, and the medium-height Nobla reha, when used as a footboard, offers the resident protection as well as an unobstructed view of the room. The low-height Nobla mala exudes the flair of a modern futon bed.

Decors and upholstery – Colours for every interior

The colour of the care bed can play an important role. It should appeal to the resident, fit in with the colour concept and interior design and, if necessary, also be easily recognisable for people with cognitive impairments. Stieglmeyer's wood decors and fixed upholstery offer a very large selection. It ranges from the neutral white of the Chalk decor through to warm wood tones, natural shades, and radiant colours and distinctive patterns.

Headboard: Lito, footboard: Lito reha

Headboard: Lito, footboard: Podego

Lito and Lito reha

The subtle, curved shape of the Lito has an elegant, classic look. The harmony of the headboard and footboard is not disrupted by any unnecessary elements. Lito blends well with any furnishing style. Lito reha, the lower version, appears even more discreet, allowing the resident a free view into the room or through the window.

Podego

The Podego accentuates the arc shape with a handle bar. Its special ergonomic design provides residents and care staff with a convenient support when standing up or working in the room.

Crenata Beech
R 24096 VV

Elm Baron Truffle
R 37003 VV

Headboard: Lito, footboard: Podego

Headboard: Lito, footboard: Pino

Podego

With its timelessly elegant shape, Podego brings a touch of home to every decor. The white tone of the Chalk decor brings brightness and a positive atmosphere into every care room and motivates the resident to take an active part in everyday life.

Pino

The Pino is a stylish counterpart to the Lito. The Pino inverts the clear arc described by the Lito. No further elements distract from the harmonious design. The Pino gives the bed a happy, smiling appearance.

Chalk
U 11102 VV

Lindberg Oak
R 20021 VV

Headboard: Nobla, footboard: Nobla reha

Headboard: Nobla reha, footboard: Nobla mala

Nobla

Clear right angles, playfully rounded at the corners – Nobla represents subtle elegance and comfort. This headboard or footboard also makes a fine impression in combination with high-quality textile or leather Softcovers. The residential home bed Carino – pictured here – transforms optically into a comfortable sofa during the day with Nobla head and footboards.

Nobla reha and Nobla mala

The Nobla reha is the mid-height variant of the Nobla. The Nobla mala is the low-height version. Both of these headboards/footboards allow an unobstructed view of the room or through the window. These discreet models lend low-height beds a futon-like elegance.

Magnolia
U 11509 VV

Royal Maple
R 27001 VV

Headboard: Primus, footboard: Primus low

Headboard: Primus, footboard: Primus low

Primus

The Primus headboard and footboard looks classical and elegant. Its straight, rectangular shape is accentuated by a decorative edge along the top that can also be used as a handle. This makes the bed easier to push and gives residents something to hold onto when getting out of bed.

Primus low

Used as a low-height footboard, the Primus low is perfect for combining with the taller version of the Primus headboard. The curvy recess below the handle is pleasing to the eye and provides a better view of the room.

Nordic Teak
R 50094 NW

Natural Beech
R 24010 VV

Headboard and footboard: Alero

Headboard and footboard: Solvo

Alero

The Alero combines functional straight lines with the curve of the softly rounded handle bar. The contrast of wood and stylish metal accents to which the handle bar is fixed adds even more dynamism to the design. The handle bar is made of solid beech and is stained to match the chosen decor. The Alero is both modern and traditional in appearance.

Solvo

A gentle curve has been added to the handle bar of the Solvo, relaxing its clear lines. With its pure wood looks and agreeable shape, the Solvo headboard is recommended for all those who prefer a traditional style.

Havana Cherry
R 42006 VV

Style Oak Cinnamon
R 20100 VV

Headboard and footboard: Prinzino

Prinzino

Straight lines, right angles, pure wood: With its clear, no-nonsense style, the Prinzino is perfect for any modern or classic interior. The elegant handle bar provides support and a clear view.

Headboard: Nobla, footboard: Camo

Camo

Camo combines a straight handle bar with rounded corners and an equally softly rounded cut-out. Metal accents add to the visual appeal of the design. Camo sets clear accents and makes the bed the cosy centre of the room.

Bloomed Cherry Planked

Fabric: Opera 4551

▲ Wooden and upholstered elements can be freely combined to create captivating contrasts.

Faux leather: Solo 8553

▲ The care bed looks particularly cosy and personalised with high-quality faux leather.

Homelike elegance

Elegant upholstery for our Nobla range of head and footboards

Beds with cosily upholstered surrounds have long been a standard option in the private sector – the success of box spring beds proves this. In care homes, too, upholstery can significantly increase well-being and make residents feel more at home. The high-quality fabrics and faux leathers in the Stieglmeyer collection are ideal for daily use. They are durable, easy to care for and very attractive. With the help of the Vario Safe system, upholstered headboards, footboards and panels can also be effortlessly removed and replaced if, for example, a new resident has different requirements.

Fabrics and faux leathers

A range of attractive fabrics and faux leathers are available for the Nobla headboard/footboard and the Vario Safe system side panels. Please call us for further information. Please follow the manufacturer's instructions when cleaning the fabrics and faux leather.

Attractive design

Elegant upholstery with optional quilting for our Nobla head/footboard range

A pleasant atmosphere like that of a good hotel room or a private bedroom enhances the positive effect of rehabilitation. The optional upholstered surrounds of our care beds have a part to play here. And with an elegant quilting pattern, they look even cosier. There are three patterns to choose from: Vertical lines, the box design or the classic diamond design.

Vertical lines

Box design

The rectangular stitching of the box design looks lively and energetic – the best prerequisites for rehabilitation.

Diamond design

Diamond patterns on furniture and clothing are often associated with a British lifestyle. They look both classy and cosy.

Upholstery diamond design, fabric: Ambra 1551

▲ The classic diamond design creates a distinguished atmosphere.

Headboard: Nobla, footboard: Nobla reha, fabric: Tiba 8111

▲ The box design has a modern, clear-cut look.

ESSENTIALLY BETTER
