

# Lindeo

THE DELUXE FRAME  
FOR A NEW WELL-BEING

Many people would like to enjoy the advantages of an electrically adjustable bed but are reluctant to part from their own familiar bedroom. In this case, the Lindeo comfort frame provides the ideal solution. It is simply placed inside your own bed and remains practically invisible. With its lift action, from around 29 to 74 cm, and its adjustable mattress base, the Lindeo promotes good health and mobility. With three mattress-base sizes to choose from: 90 x 190 cm, 90 x 200 cm and 100 x 200 cm, the comfort frame fits into just about any bed.

With its space-saving chassis, the Lindeo can be placed into many existing bed frames.

The highest position, at around 74 cm, is perfect for making the bed or packing a suitcase without straining your back.
