## Decors

Wood decors lend a stylish and congenial atmosphere to every room. Many colours create a warm and cosy effect. Other shades, such as the light-coloured magnolia or the white chalk decor, have a fresh and energising effect. Choose or combine the decors that go precisely with your furnishings.

- The grain of the furniture fronts can be either horizontal or vertical.

- Due to the inhomogeneous pattern of the grain, the Truffle Baron Elm decor R 37003 VV is only available with a vertical grain.

# Fittings and opening angle

At your request, wardrobe and cupboard doors and drawers can swing open to the exact extent that the floor plan in the room allows, and only as far as the user needs for unrestricted access.

▲ Hinge for a wide opening angle of 155°.

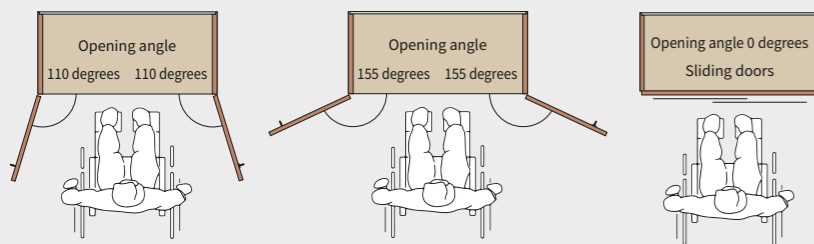

▲ Drawers provide easy access.

## ESSENTIALLY BETTER

### Opening angle

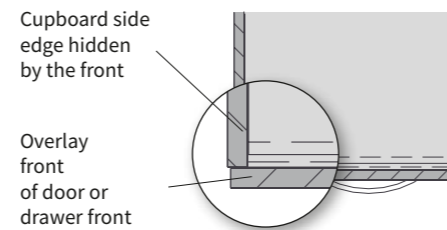

The choice of cupboard hinges controls the opening angle of the doors. Door dampers control whether the doors close softly.
