Contract furniture and interior design concepts

From the idea to the finished result

# Tailor-made interior design concepts

## A made-to-measure living, working and caring ambience

Safe, comfortable and practical furniture plays an important role in nursing and healthcare facilities. Residents and patients should immediately feel at home with this furniture. For care staff, any lightening of their workload is welcome. Normal standard-type furniture often fails to meet these requirements. Customised furniture systems from Stieglmeyer, on the other hand, transform any room into a place that offers a high-quality experience. Read the following pages to discover the creativity and expertise of our family-run company, the leading manufacturer of care beds and hospital beds in Germany.

Almost all pictures were taken in our exhibitions in Nordhausen and Herford. We would be pleased to arrange a viewing appointment for you.

Tailor-made interior concepts  
"made in Germany"

### Expert advice

With contract furniture from Stieglmeyer, you never get "off-the-peg" solutions. Our experts assess the **situation on site**, study the plans and then advise you extensively on the possibilities. The **best possible concept**, which is both quick and economical to implement, is created through a process of mutual exchange.

### Planning

Our specialists design detailed plans for your room interior. If you wish, you can look at every detail and adjust it to suit your ideas.

### Implementation

If the planning exactly matches your ideas, our **team of installers** will assemble and install the furniture on your premises. You can rely on the meticulous work of our staff and will be delighted with the results. We will **schedule the work** to suit your wishes.

### Production

The contract furniture is manufactured in our modern **wood manufacturing facility in Nordhausen**. Our Stieglmeyer plant in Thuringia, Germany is equipped with highly automated machinery and produces 22,000 care beds and 19,000 bedside lockers per year. Nordhausen stands for the best quality and homelike designs. The facility also enjoys an outstanding reputation as a training centre for wood mechanics.

### ESSENTIALLY BETTER

## Everything from a single source

Based on a comprehensive analysis, we design and build completely individual service rooms, reception areas and other interiors for you:

Arrange an appointment

Room analysis on site

Evaluation and design

Customised construction

Precise on-site installation

Tailor-made and professional – and all from a single source.

## Special designs possible

To be able to work as effectively as possible in any room, the available space must be utilised to its fullest extent. We produce furniture that is precisely tailored to your interiors and suits your requirements and wishes.

# Day care

## Feels like home

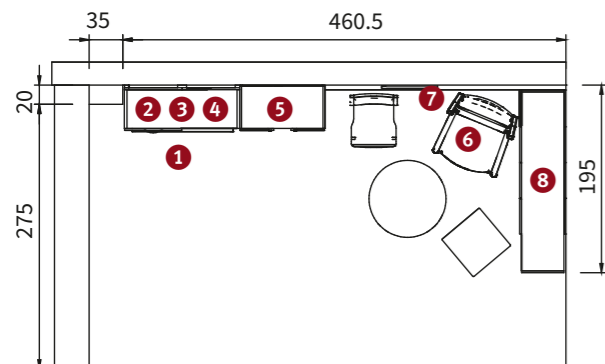

In day care, it is particularly important that residents and visitors feel at home straight away. Comfortable seating, a generous cloakroom and secure lockers for residents and staff to keep their personal belongings contribute to a positive impression right from the start.

Our tailor-made solutions create communal lounges where everyone feels comfortable and safe. Modern locking systems protect valuables, while intelligently integrated coat racks provide space for jackets and umbrellas. Cosy communal areas can be created with the seating ranges from Stiegelmeier.

Wide-ranging choice of fabrics

- 1 Upholstered bench
- 2 Coat hooks, choice available
- 3 Coat rack
- 4 Lift door
- 5 Locker compartment, choice of locking systems available
- 6 Luna wing chair + footstool
- 7 Wall panelling
- 8 Fixed room divider

▲ Spacious, welcoming reception and recreation rooms create a positive atmosphere.

▲ Tailor-made upholstered seats are comfortable and look stylish and sophisticated.

▲ Modern coat racks can be installed in many places as space-saving and easy to reach features.

▲ Secure and easy-to-operate locking systems for many requirements protect people's valuables and personal belongings.

Free choice of lock type – see page 30 for more details

Comfortable feel due to indirect lighting

## Rehabilitation Comfort and support within a small space

A quick recovery and a successful return to independent living are the focus of rehabilitation. Well-designed furniture which creates the atmosphere of a good hotel makes an important contribution. The feeling of independence is reinforced by having your own fridge in the room. The excellent mobility of the Elvido movo bed with its flexible Vario Safe system makes it an ideal companion at every stage of rehabilitation.

Particularly elegant accents are set by indirect lighting on the wall panels. This provides a pleasant, warm, glare-free light at any time of day.

◀ An attractive wall panel with indirect lighting and well-designed furniture creates an ideal environment for the Elvido movo care bed.

▲ A versatile cabinet element with a refrigerator and drawers provides comfort and support.

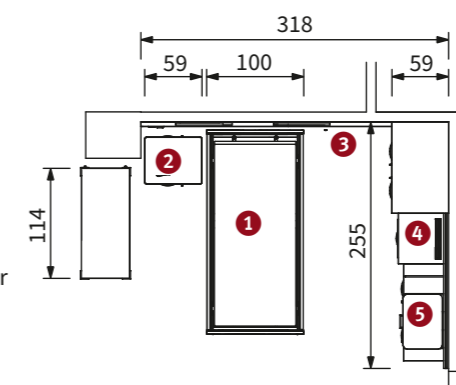

▲ Fully extendable drawers provide easy access for people with restricted abilities.

▲ A mobile room divider is a feature for dividing up living and communal spaces at any time.

- 1 Elvido movo care bed, Havana Cherry decor, Nobla headboard, Nobla reha footboard
- 2 Estrado bedside cabinet
- 3 Wall panelling with lighting element
- 4 Wall unit with refrigerator
- 5 Suitcase rack

▲ The internal division of the wardrobe elements offers great freedom of choice.

# Rehabilitation

## A successful return to independent living

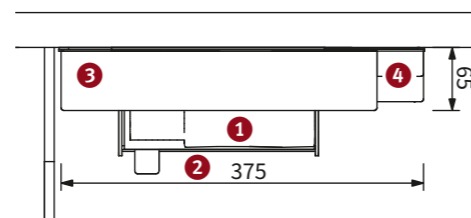

Our practical Carino bed has many uses – with its manually adjustable backrest, it is ideal both for rehabilitation patients and for carers' living areas. Coupled with our tailor-made furniture systems, it provides great comfort even in small spaces. Use spacious bed drawers to store personal belongings. Wall-mounted cabinet elements for easy floor access are particularly suitable for wheelchair patients. They also permit effortless and thorough floor cleaning.

▼ A coat rack integrated behind a mirror provides great comfort within a small space.

Wall-mounted furniture

- 1 Care bed with bedside shelf and fixed board, Havana Cherry decor, Nobla headboard, Nobla reha footboard
- 2 Bed frame, width 90 cm, decor Magnolia
- 3 Wall-mounted wall unit with niche for care bed, decor combination of Havana Cherry and Magnolia
- 4 Coat rack with mirror

▲ Wall-mounted furniture enables wheelchair users to easily reach drawers and cupboard doors. This also makes it easier to clean the rooms. Vacuum cleaners and mops can slide underneath the furniture, and no floor areas are left uncleaned.

◀ Ample, space-saving storage can be created around the bed.

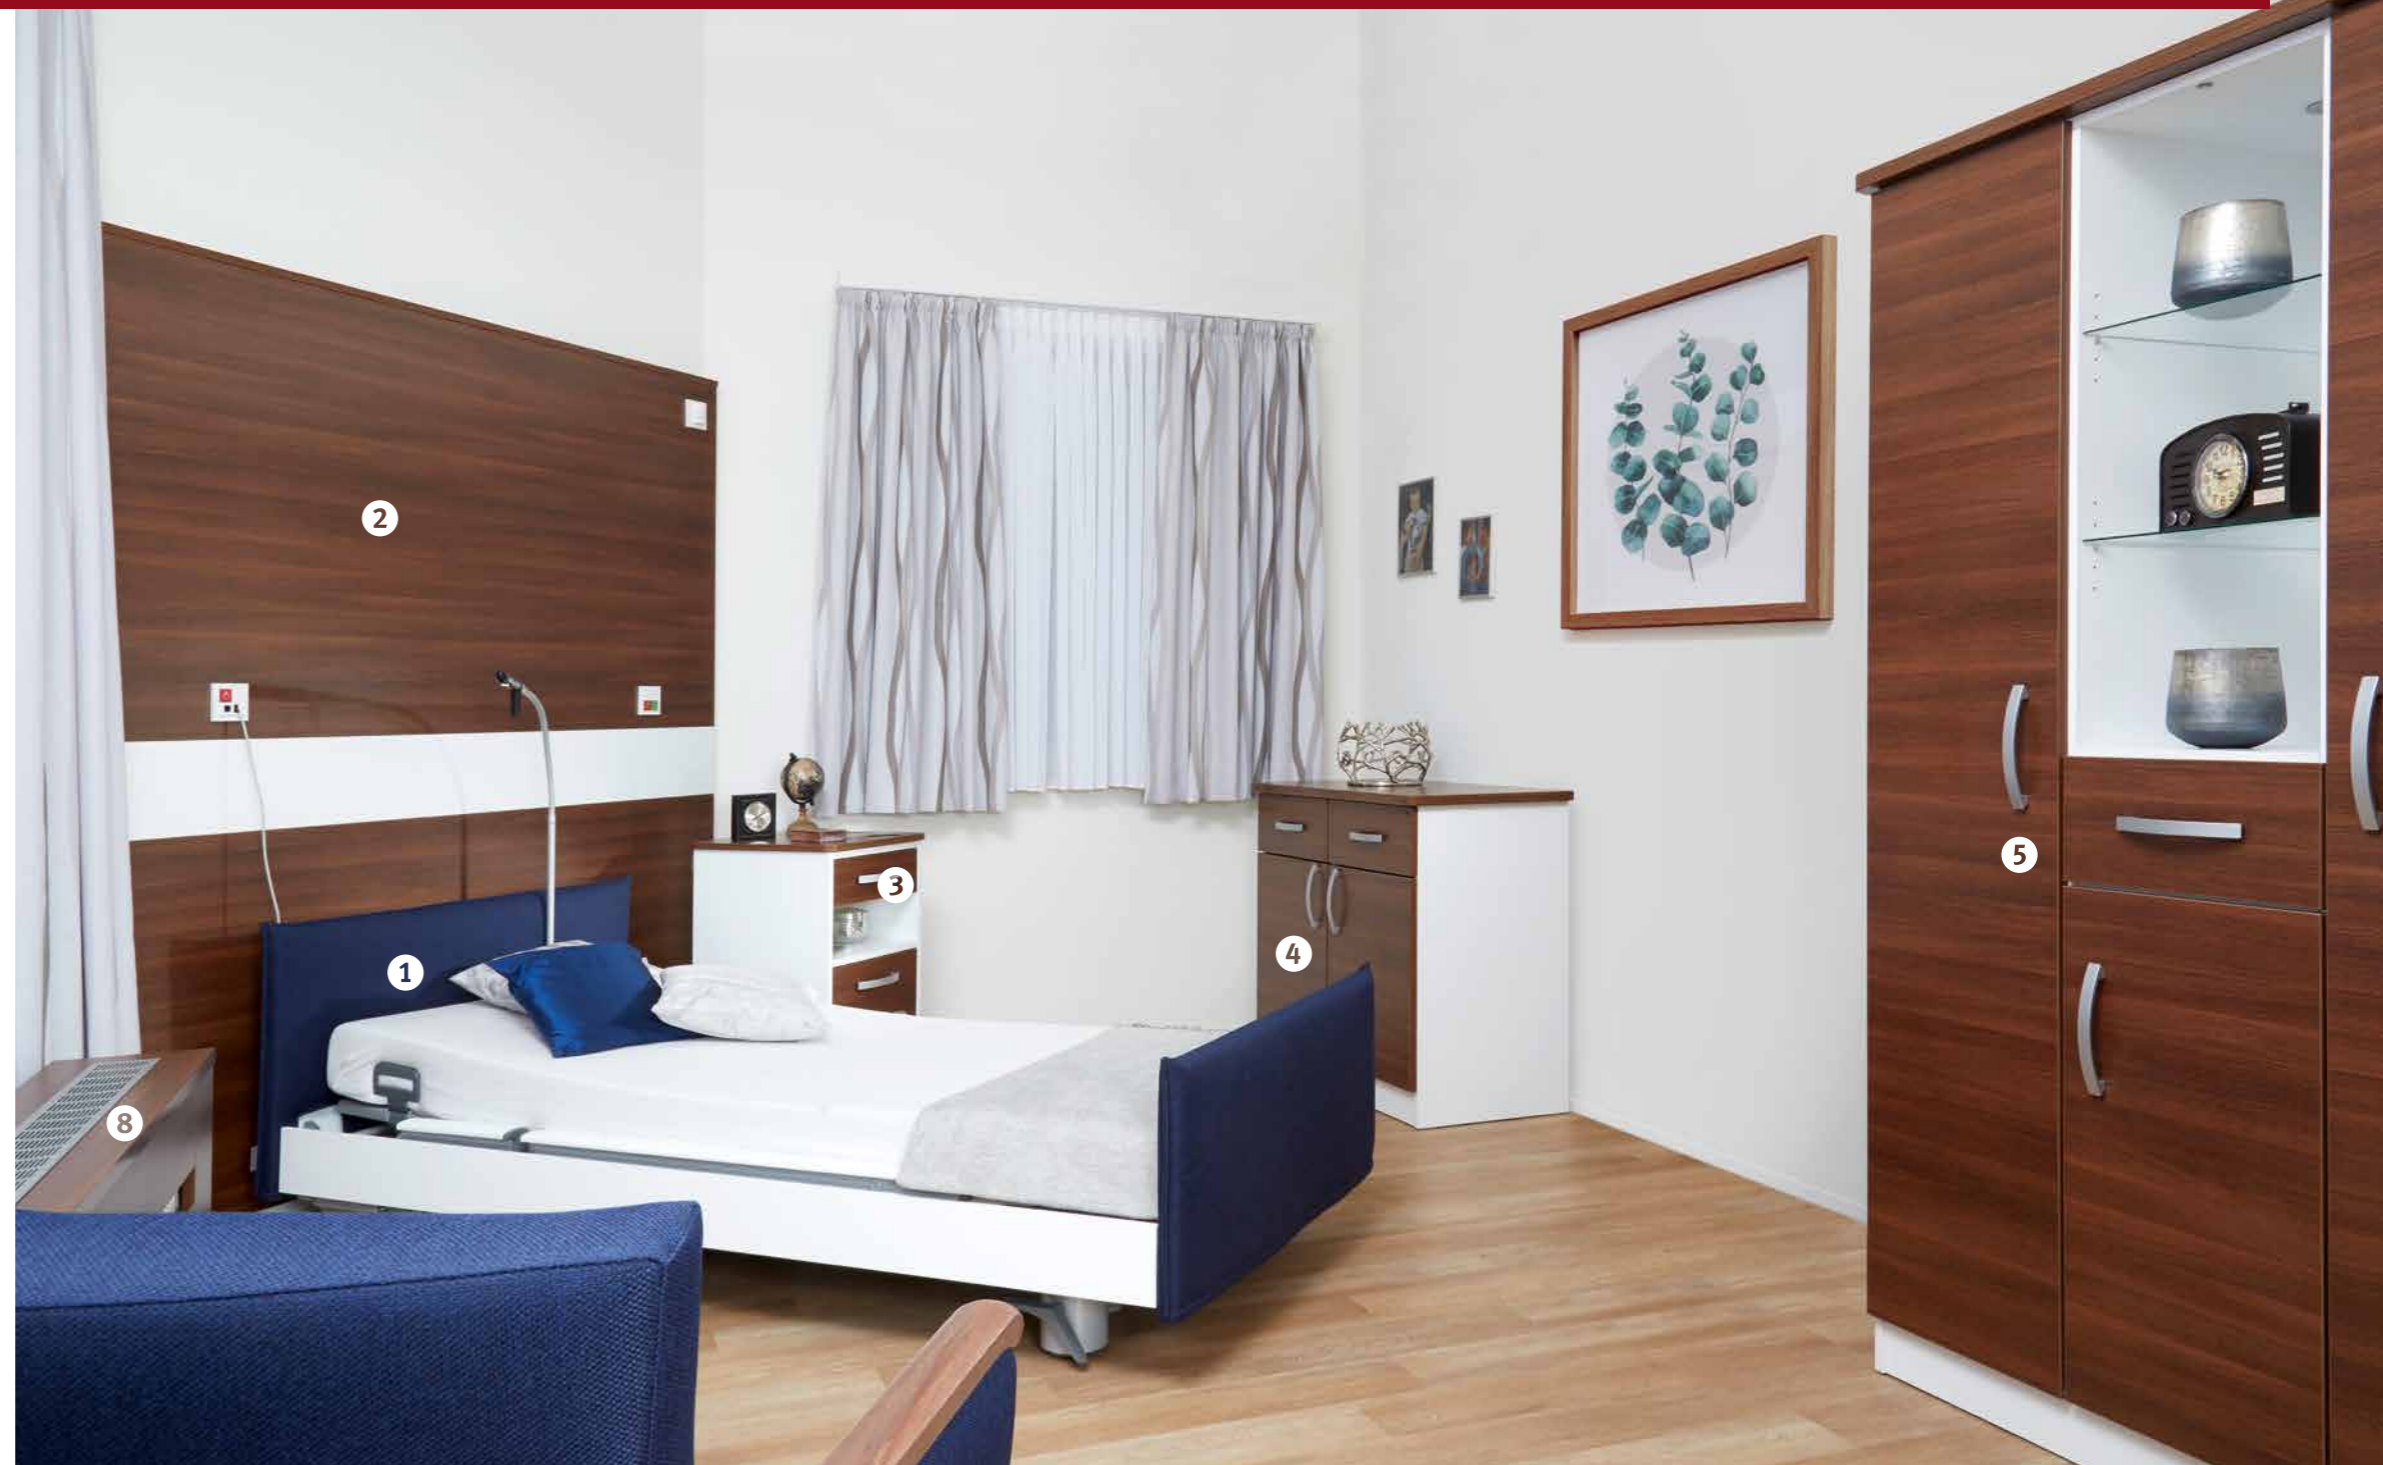

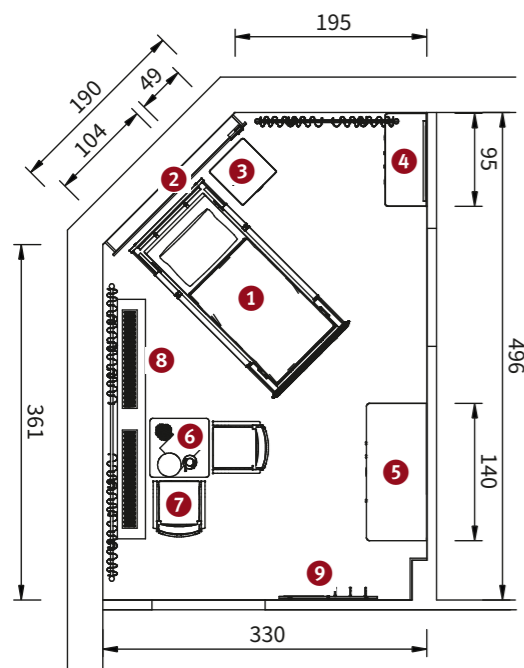

# Residents' rooms

## New zest for life with attractive colours

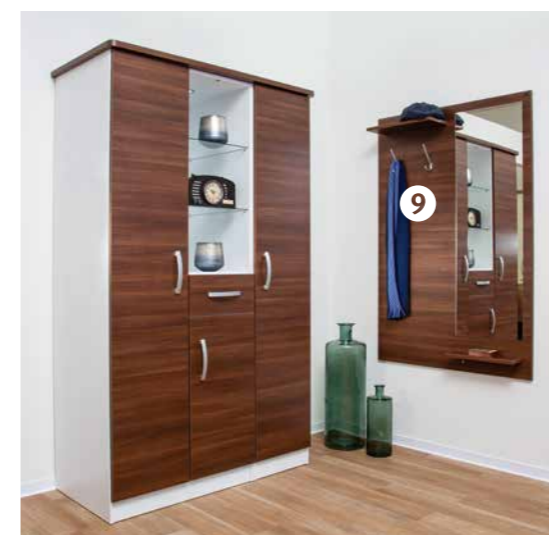

Pleasant colours and contrasts make it easier for older people and those with dementia to perceive things in their surroundings. They find their way around their room more easily and feel more secure.

Brightly coloured Softcovers for the headboards of our Venta care bed as well as attractive combinations of light and dark decors give every resident's room an individual atmosphere. The rear wall panel with an integrated nurse call system and lights provides enhanced safety in everyday care.

- 1 Venta care bed, Chalk decor, head & footboard: Nobla / Nobla-reha, Comino 5552 Softcover
- 2 Rear wall panel with integrated nurse call system
- 3 Bedside cabinet, Chalk/Bella Noce Choco decor
- 4 Sideboard, front decor with horizontal grain
- 5 Wardrobe, 3-piece, with glass shelves and lighting
- 6 Centre-column table
- 7 Luna chair, Comino 5552 cover
- 8 Radiator cover
- 9 Coat rack panel

▲ Comfort and safety: With its wooden cover, the radiator forms the ideal backdrop for a cosy armchair and a column table.

▲ Design the way you prefer: The wood decor grain can be vertical or, as in the picture, horizontal.

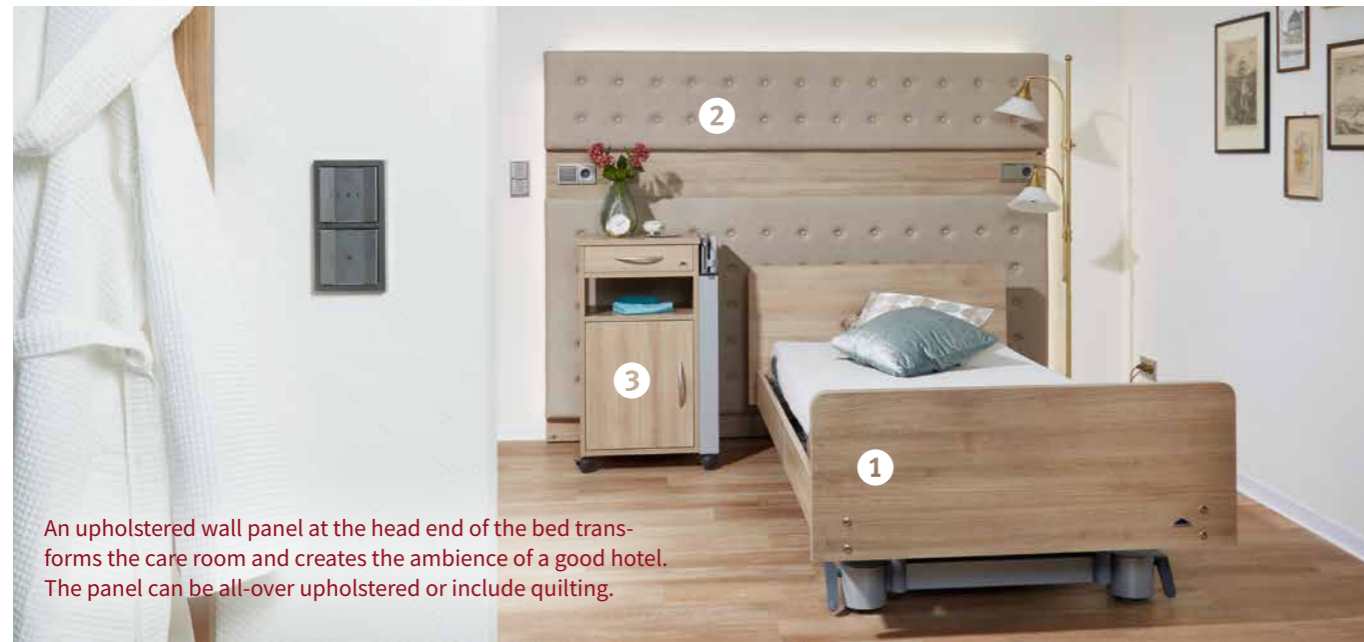

Choice of fittings and hinges – see page 32 for more details

▲ Depending on the position of the wardrobe in the room, the maximum opening angle of the doors can be restricted – in this case to 155° on the left and 110° on the right. LED lighting and glass shelves set modern accents.

# Residents' rooms – making the best use of space

An upholstered wall panel at the head end of the bed transforms the care room and creates the ambience of a good hotel. The panel can be all-over upholstered or include quilting.

The home-from-home style and open design of our furniture systems bring out the full potential of any room. A radiator cover with a seat, for example, is a feature that creates much added comfort. Even in a smaller room, this provides space for several visitors. As a low-height bed, the Elvido vervo care bed supports fall prevention.

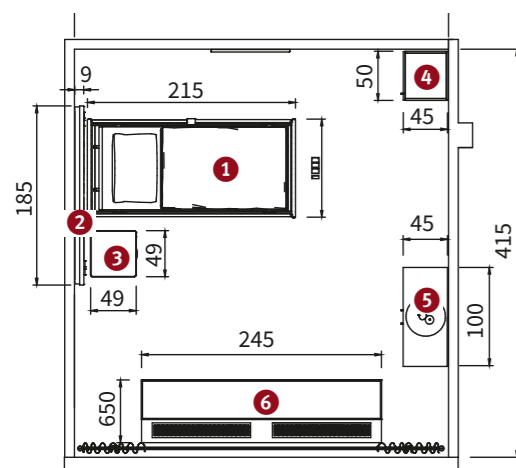

▲ Bed, shelf unit, sideboard – a precisely coordinated ensemble of cosy, practical furniture from a single source at Stieglmeyer.

▲ The radiator panelling with a seat and air vents is a cosy place to read and chat.

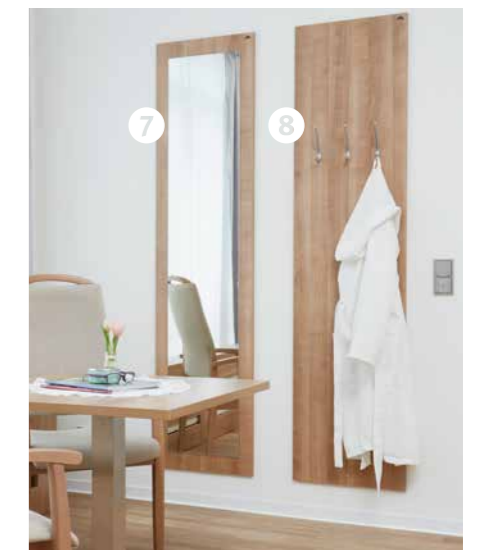

Integrated lighting with a switch on the wall panel provides indirect light.

▲ A built-in wardrobe with wall trim makes optimal use of the space offered by a recess in the room.

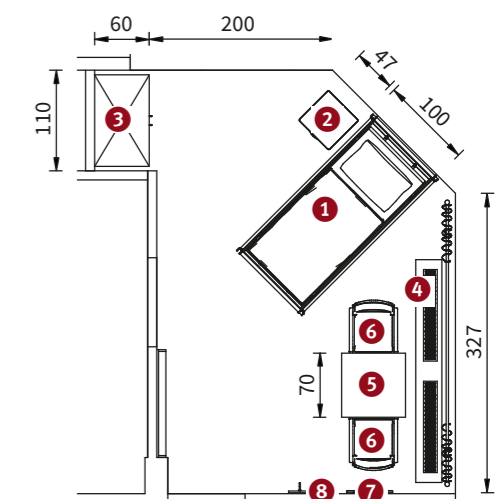

▲ Door hinges that restrict the opening angle prevent damage occurring, particularly in confined spaces. There are no limits when it comes to the interior design.

▲ Sleek mirror and coat rack panels visually enlarge the room.

Our furniture systems and care beds blend perfectly with every interior to create a bespoke overall look – even with complicated layouts. A small recess in the wall can be used for a wardrobe to provide much-needed storage space, while an attractive radiator cover can create an extra shelf. The Libra care bed with its modern Vario Safe system adapts flexibly to every requirement.

- 1 Libra care bed, Havana Cherry decor, Lito headboard, Pino footboard
- 2 Bedside cabinet, Havana Cherry decor
- 3 Built-in cupboard, 2-piece, with front trim and top unit
- 4 Radiator cover
- 5 Centre-column table
- 6 Fena seating range
- 7 Mirror
- 8 Coat rack

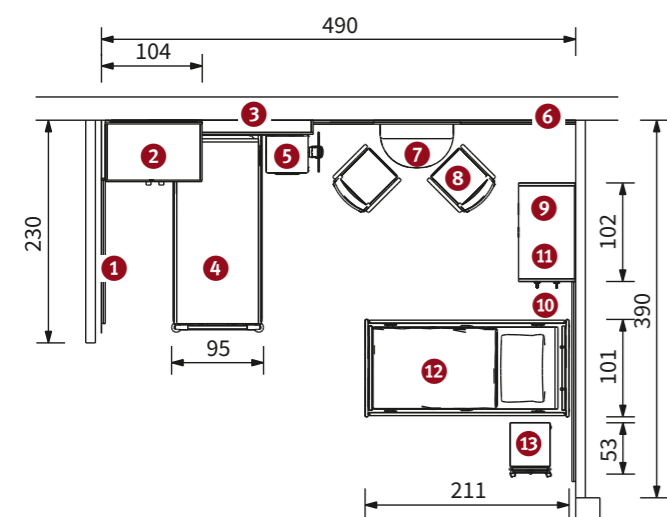

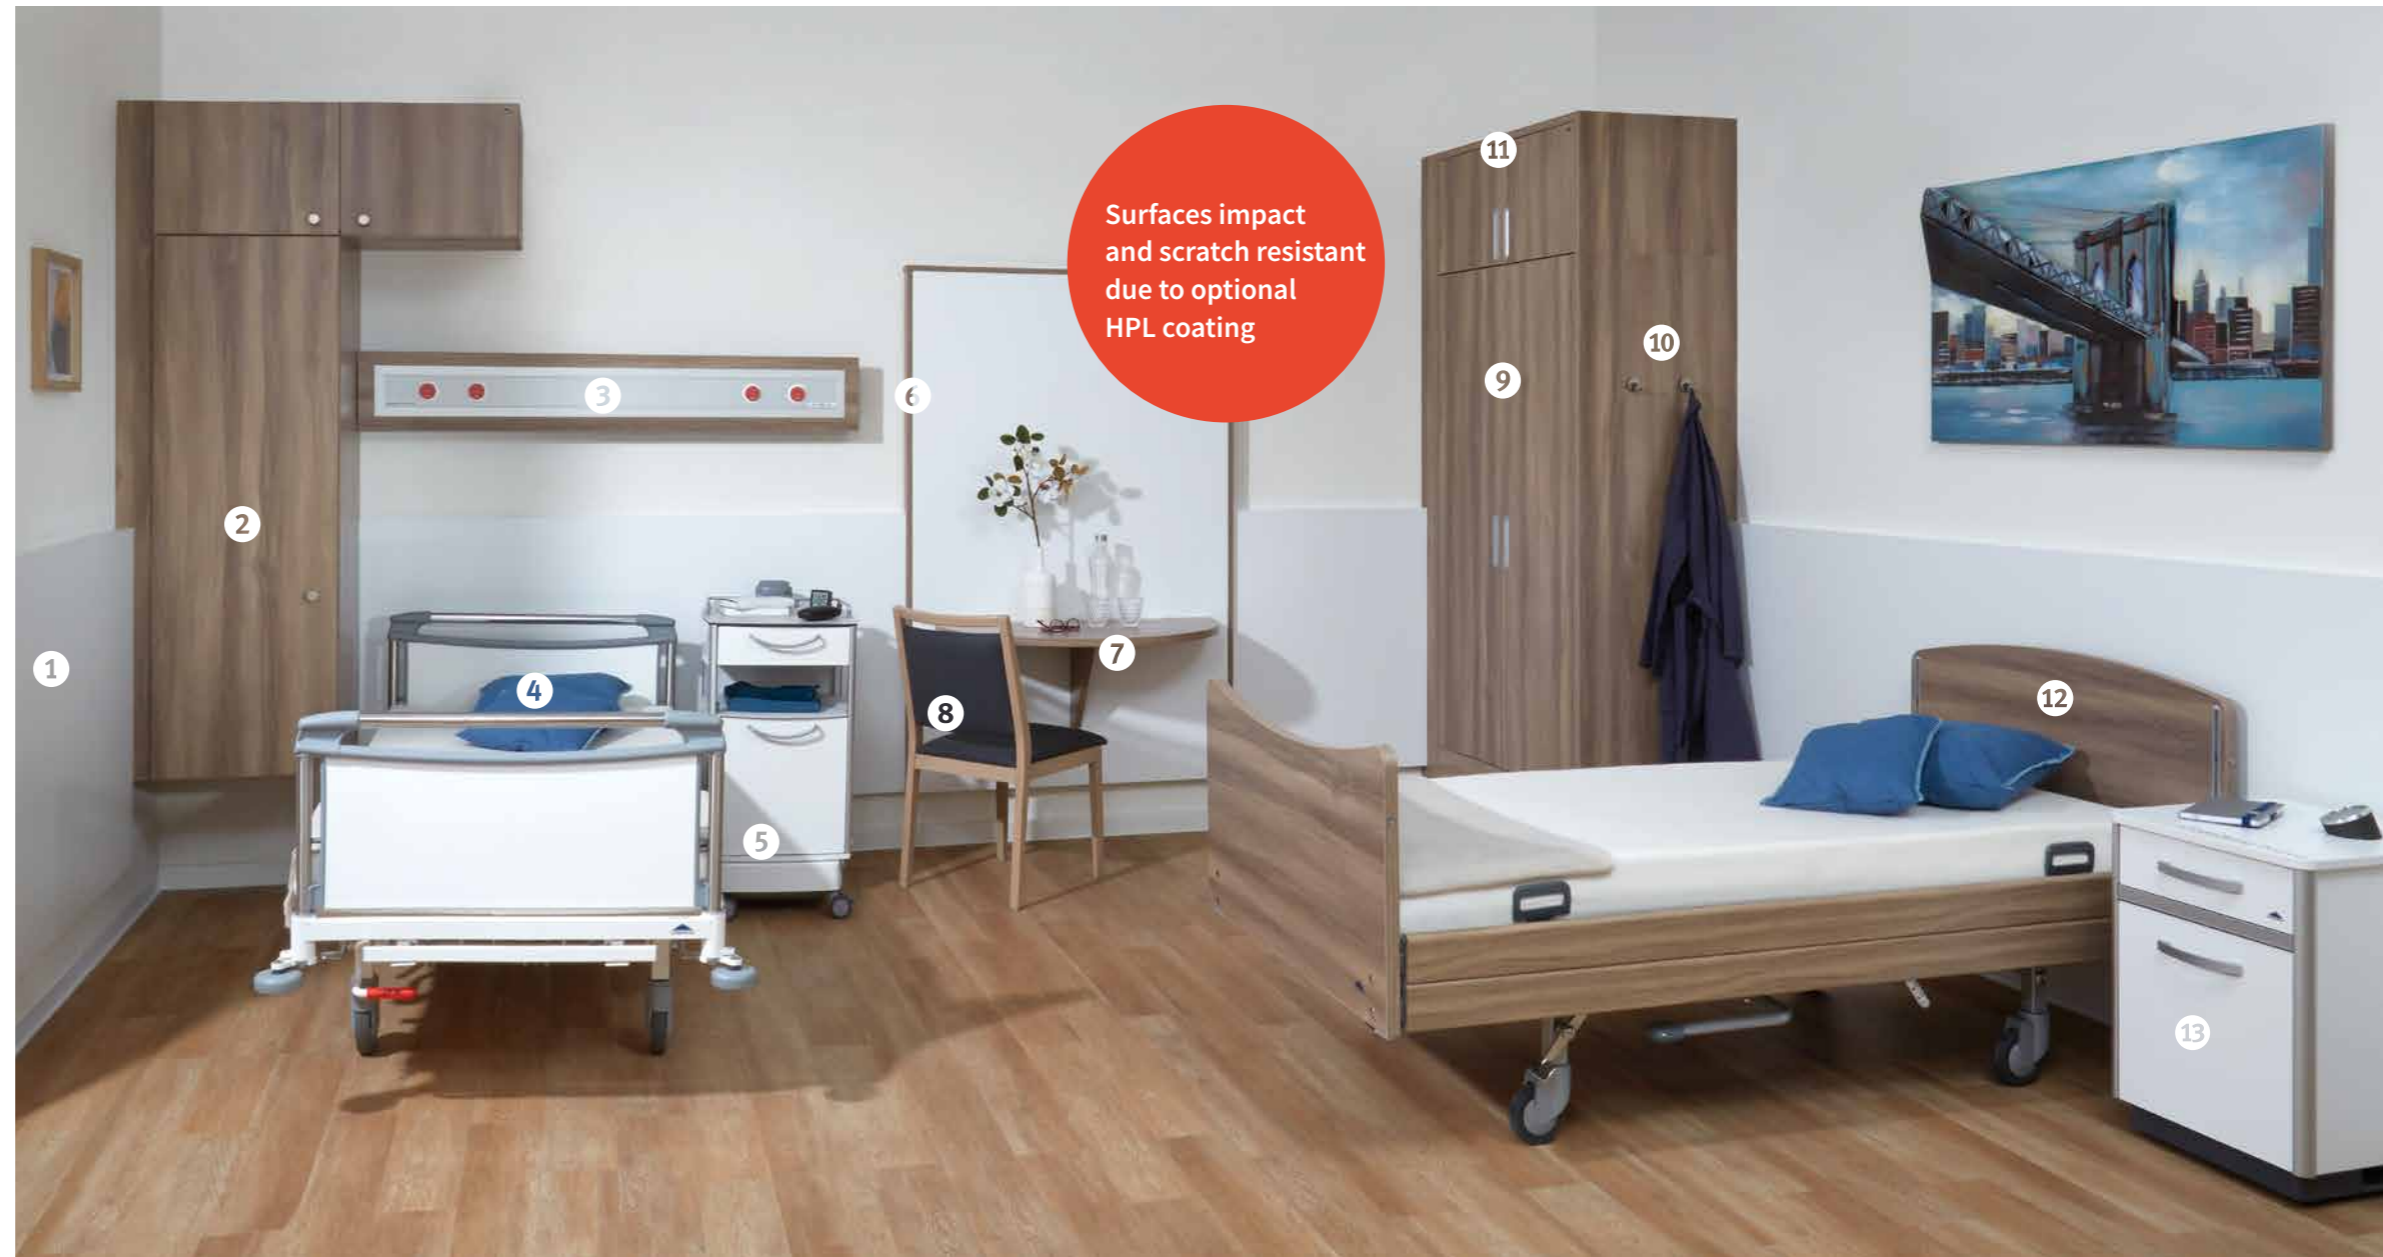

# Psychiatric care

## Enhanced protection and quality of life

Beds and furniture in psychiatric facilities are subject to very stringent safety requirements. Stable constructions and dispensing with cords help to protect patients from endangering themselves and others. One such example is the hydraulic version of our Classiko care bed, which offers a high level of comfort without any electrical components. Attractive furniture also creates a pleasant atmosphere. At the same time, we avoid the use of any loose or protruding components which patients could injure themselves on.

- ❶ Wall panelling, single
- ❷ One-piece tall unit, wall-mounted with top unit, knob-type handle
- ❸ Supply unit, covered
- ❹ Vivendo pro hospital bed, Snow White decor
- ❺ Somero bedside cabinet
- ❻ Wall panelling with edge trim
- ❼ Semi-circular table, projecting, wall-mounted
- ❽ Seating range
- ❾ Two-piece wardrobe with top unit, shell handles, inlay doors, door fittings tapped, 28 mm cabinet side
- ❿ Suicide prevention hooks
- ⓫ Top unit with shell-type handle
- ⓬ Classiko care bed, hydraulic version, Truffle Baron Elm decor, Lito headboard, Pino footboard
- ⓭ Combino brevo bedside cabinet, Chalk decor

### ESSENTIALLY BETTER

## Everything from a single source

If patients in psychiatric units develop aggressive or suicidal tendencies due to their condition, then safe, protective room furnishings are essential. Furniture systems from Stieglmeyer offer mature concepts from a single source:

- Flush-fitting cabinet doors without any danger of crushing
- Reinforced cabinet walls
- Door hinges that enable the opening angle to be restricted
- Round cabinet knobs or shell handles that prevent ligature points for cords for potential strangulation
- Automatically folding-down suicide-prevention hooks and pull-out clothes rails with limited load-bearing capacity
- Stable mechanical hospital beds and care beds
- Option of increased resistance to moisture due to selection of special materials

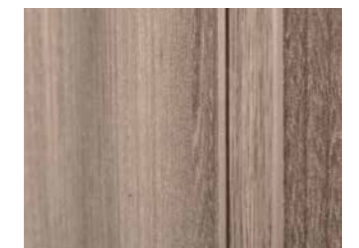

▲ Suicide-prevention hooks for towels or jackets fold down automatically when the load exceeds 25 kg. This prevents them from being used as strangulation aids.

▲ Pull-out clothes rails are easy to reach. They also fold down when loaded with more than 10 kg.

▲ Stieglmeyer offers optimal solutions for psychiatric patients in both the hospital and care sector.

▲ Flush-fitting doors minimise the risk of impact and crushing.

# Hospice

## Providing support at a threshold in life

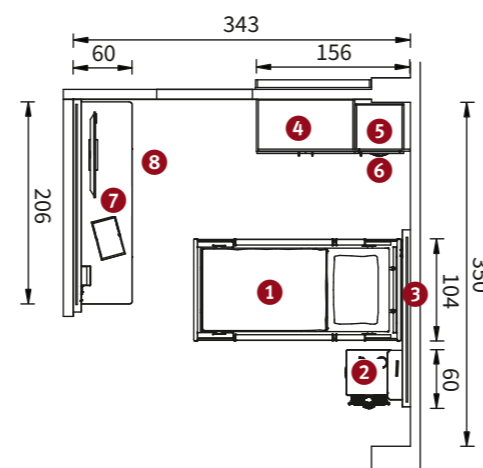

Taking leave, giving solace and perhaps hope for a new life – the hospice is a place of threshold experiences, where residents and relatives need the best possible support. The comforting and practical interior furnishings from Stieglmeyer have a calming effect and offer the greatest possible comfort even in small rooms. They create places where positive feelings can unfold and last wishes can be fulfilled.

◀ Soothing and comforting: Hospice rooms with furniture by Stieglmeyer enable residents to experience peace and relaxation.

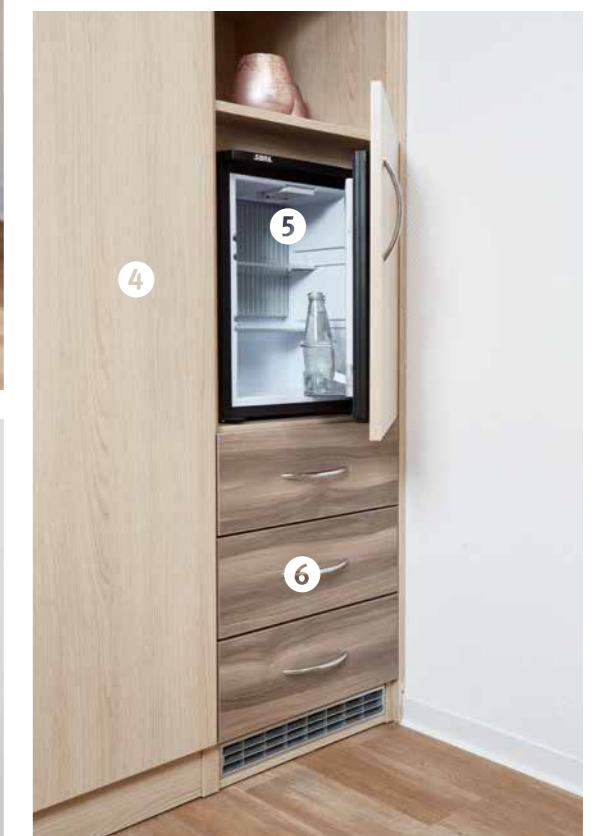

Attractive accents through decor combinations and lighting elements

- 1 Venta care bed, Lindberg Oak decor, Nobla headboard, Camo footboard
- 2 Combino bedside cabinet with adapter, Lindberg Oak decor
- 3 Wall panel with lighting and integrated cables, Lindberg Oak and Truffle Baron Elm decor combination
- 4 Tall unit, 3-piece, divided in the middle, with top unit and fridge, square bow handle, side and upper panels
- 5 Built-in fridge with structural ventilation
- 6 Drawers of various heights
- 7 Desk with wall panel
- 8 Seating range

▲ A wall-hung desk with a homely rear panel invites you to read or write letters.

▲ The fitted refrigerator with integrated ventilation in the base is the ideal storage place for favourite foods and drinks.

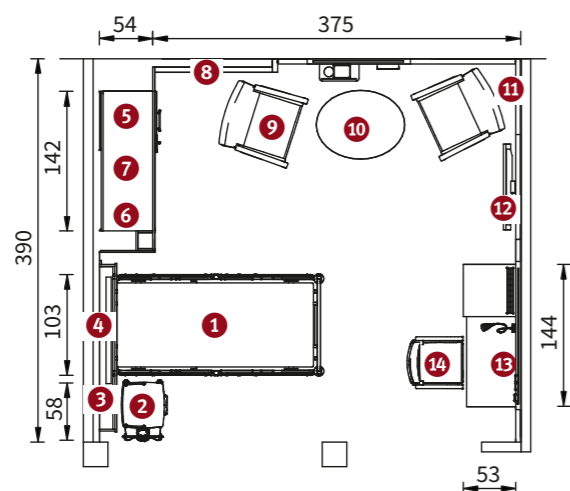

## Private rooms

### Comfortable and high-quality design to suit every taste

Comfortable private rooms with an attractive design make a significant contribution to the positive image of a hospital. Increase the well-being of your patients with stylishly adapted room elements and indirect lighting. Comfortable armchairs, sophisticated wardrobe systems and modern hospital beds such as our Puro model combine to create a harmonious overall impression. Private rooms from Stieglmeyer can compete with any stylish hotel.

- 1 Puro hospital bed, Snow White decor
- 2 Somero bedside cabinet
- 3 Supply unit, covered, Bella Noce Choco decor
- 4 Wall panel
- 5 Built-in cupboard with a coat rack, suitcase rack and round bow handles
- 6 Integrated shelf unit
- 7 Coat rack unit with hooks and a mirror
- 8 Wall panel
- 9 Seating group, Luna range
- 10 Centre-column table
- 11 Tall wall panel with shelf and lighting
- 12 Wall-hung panel for TV set
- 13 Wall panel with desk attached
- 14 Mavo seating range

▲ Suitcase rack, coat rack, mirror, drawer – the interior layout of our built-in wardrobes fulfils every wish.

▲ Attractively covered supply rails contribute to the private atmosphere of the private room.

▼ A wall-mounted desk with drawers and a cupboard is useful for writing letters or medical notes.

▲ Chairs and tables from Stieglmeyer enhance the experience of the patient.

# Private rooms – enhanced comfort and design with our suite eMotion

Our suite eMotion lifestyle bed combines elegance, comfort and flexibility. Offer your private patients the comfort and design of a luxurious hotel and at the same time benefit from all the advantages of an electrically adjustable bed with a lift function and a sitting position. We manufacture classic, high-quality furniture elements to match the suite eMotion.

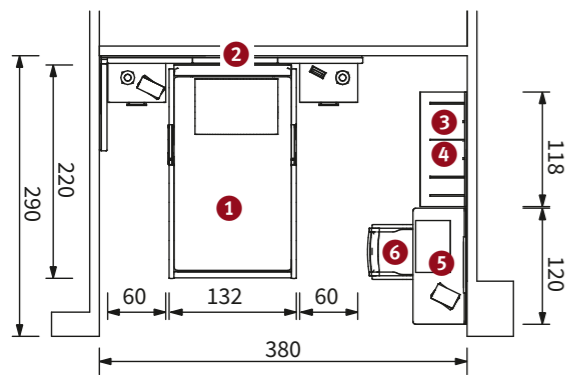

## ESSENTIALLY BETTER

### Satisfy your patients' every wish

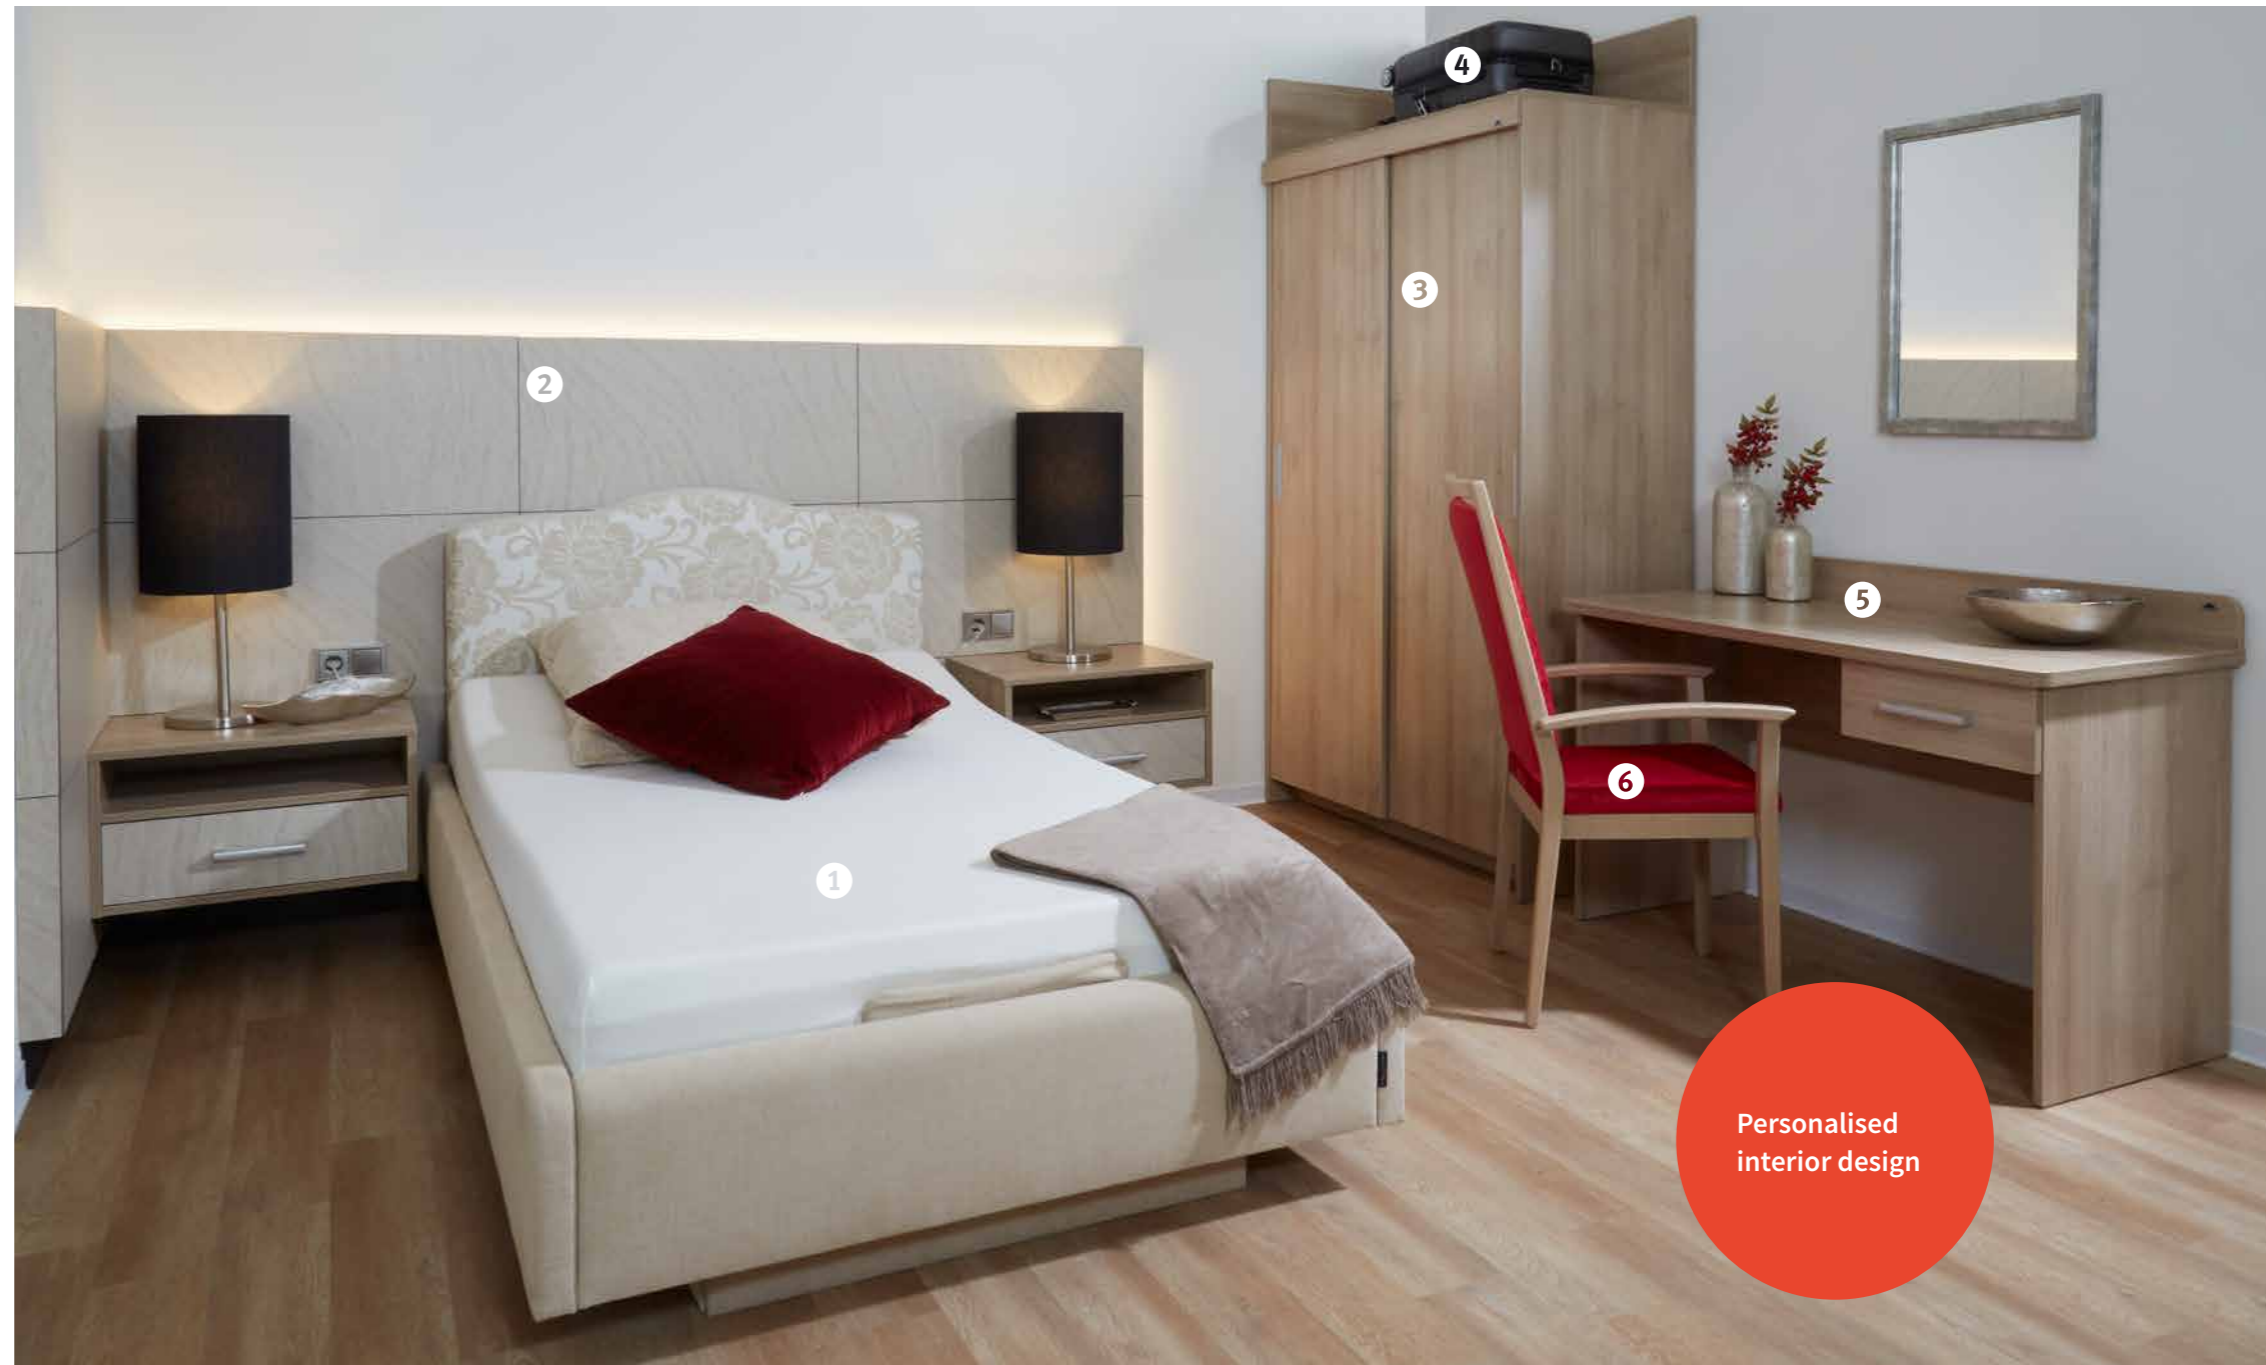

Private rooms with beds and furniture from Stieglmeyer stand out thanks to their:

- Personalised design
- Exclusive materials, e.g. rear panel in stone decor
- Selected lighting elements
- Soft-close sliding door systems
- Attractive, ergonomic chairs

- 1 suite eMotion lifestyle bed
- 2 Illuminated rear wall with 2 wall-mounted bedside cabinets
- 3 Wardrobe with sliding doors and top unit for suitcase, Cinammon Style Oak decor
- 4 Suitcase rack with corner wall strips
- 5 Desk with wall protection board, bar handle
- 6 Mavo seating range

The wall panel with stone decor, indirect lighting and wall-mounted bedside cabinets creates a luxurious ambience for the suite eMotion lifestyle bed.

Personalised interior design

▲ The suite eMotion lifestyle bed, shown here in Chalet design with a curved headboard, meets the most discerning tastes.

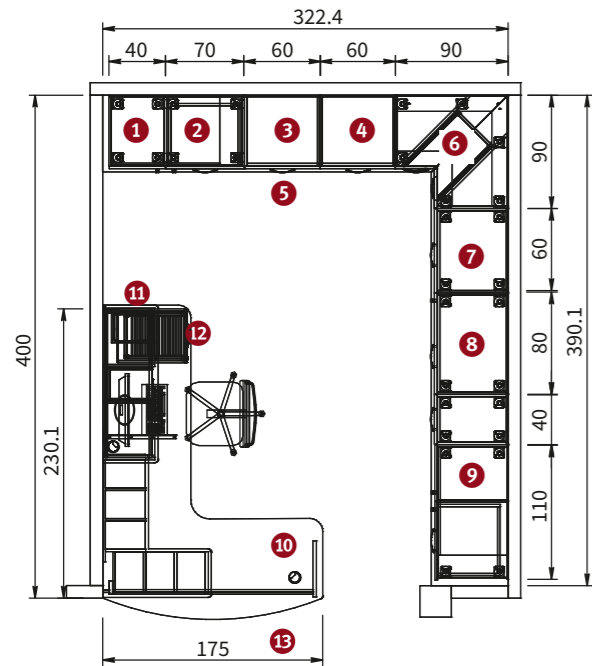

◀ Wall protectors on the desk and the suitcase rack on top of the wardrobe are stylish and enhance the look of the furnishings.

# Duty room/ reception

## Working and relaxing in a pleasant atmosphere

The flexibility of our furniture systems makes it possible to combine several functions in one room – such as this duty room, with its inviting counter, which also serves as the reception desk for the medical unit. Easy-reach cabinets, secure valuables compartments and attractive decors create a pleasant working atmosphere.

- 1 Tall unit
- 2 Illuminated top unit with a bi-fold lift door
- 3 Top unit with shelves in the pivot door
- 4 Top unit with blind
- 5 Counter
- 6 Base unit with drawers
- 7 Top unit with bi-fold door
- 8 Sliding door cupboard with internal drawers and pharmacy full-height pull-out
- 9 Medicine cabinet
- 10 Reception desk
- 11 Top unit
- 12 Mobile filing cabinet
- 13 Seat

Everything must run smoothly in the duty room – modern cabinet and drawer systems help to ensure this.

▲ Practical, beautifully designed counters enhance any reception area and ensure that visitors immediately feel at ease.

▲ Care staff of any height find it easy to operate the cabinet systems.

▼ In the waiting room, time passes twice as quickly on a comfortable seat.

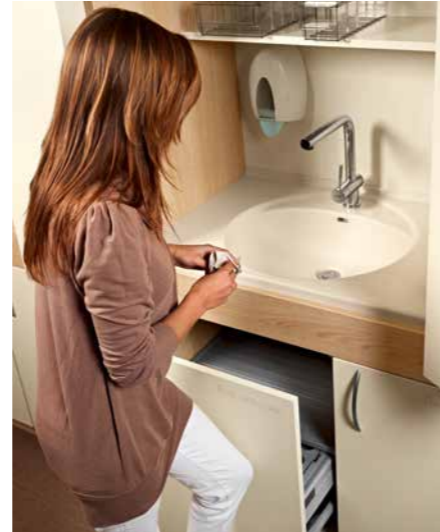

# Drawers and cabinet doors – safe and easy to reach

In the duty room, several tasks often have to be carried out at the same time. Care staff may already have their hands full but still need to take the next item out of the cupboard. This is where our intelligently designed drawers and cabinet doors show what they're made of. They can be opened with little effort and just a mere touch by people of any height.

Hygiene is the top priority – such as drawers that open and close without hand contact!

A sink with a glass partition makes for particularly hygienic working.

▲ Drawers below the work surface can open simply by pressing with a knee, if desired.

## Waist height elements

Lower cabinets are ideal for things such as large drawers for hanging files or for pull-out work surfaces to prepare medication on. With our solutions, everything is always well organised.

▼ Individual storage systems in drawers certainly make work easier.

▲ Medication, care utensils, files – there's a suitable system available for everything.

◀ Clear, tidy and easy to reach – the medicine cabinet with a pull-out work surface.

▶ Corner cabinets also offer plenty of space thanks to their clever pull-out drawers.

## Cabinets and drawers

Smooth-running drawers and bi-fold doors that swing up without effort reduce the workload. We offer modern solutions as in a good pharmacy for safely storing medicines.

▲ Smoothly gliding drawers of various sizes, practical bi-fold lift doors, a choice of handles and decors – it's amazing what can be stored in a small space.

▲ The sliding-door cupboard with internal drawers (left) and pharmacy full-height pull-out (right) is ideal for well-organised and space-saving storage of medicines and utensils.

## Wall units

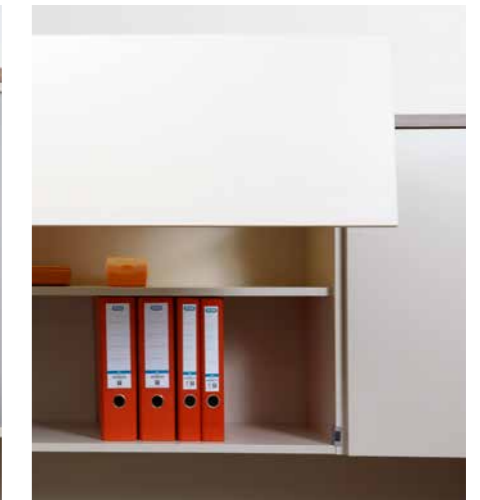

Wall units must be easy for even small care staff to reach without having to stand on tiptoe. Our practical doors, including bi-fold doors and roller blind doors, offer ingenious solutions.

▲ Additional storage space is provided by a wall unit that has shelves in the door.

▲ This wall unit with a side-opening roller blind takes up very little space.

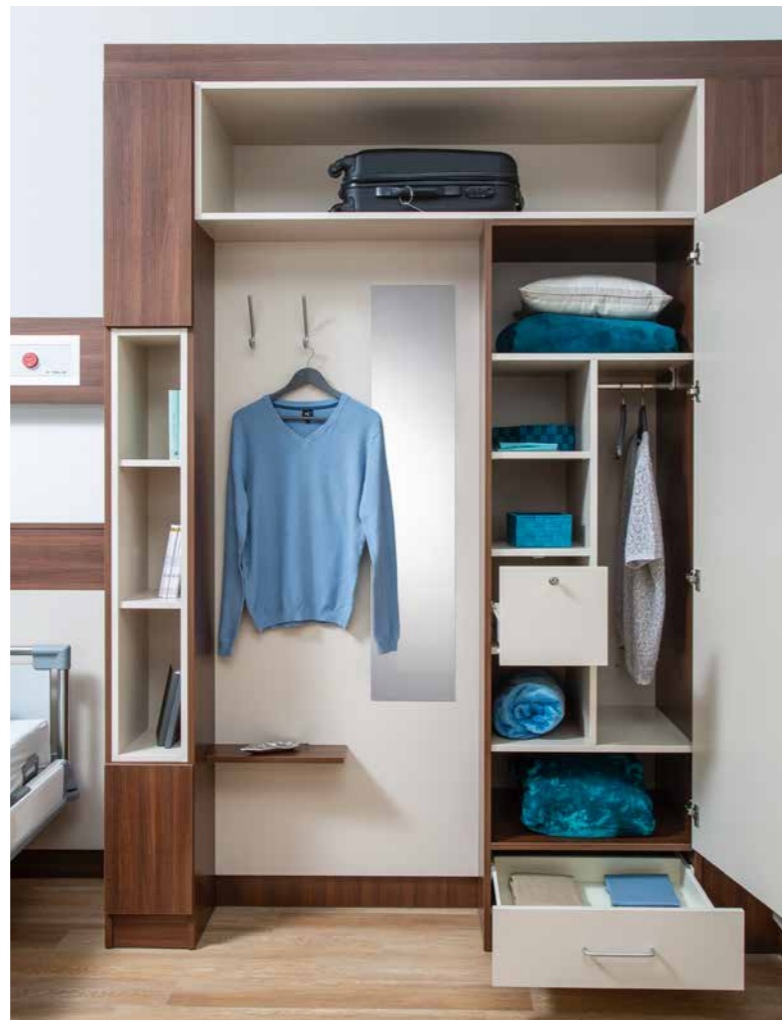

▲ Even small care staff can open wall cabinets effortlessly if they are equipped with a bi-fold lift door – a light push is enough to open the door. Internally lit cabinets make work even easier.

## Wardrobe and cabinet versions

The amount of space that is available in patients' and residents' rooms is often limited. Cupboards must therefore be able to offer a variety of storage space within a small area. With our cabinet systems, there are no limits to the individual choice available.

We will be pleased to advise you on interior layout options

Suitcase rack, coat rack, mirror, shelves, drawer – this is what a fully-equipped interior could look like.

▲ A mirror on the inside of the door transforms the wardrobe into a small dressing room.

▲ Sliding doors take up no additional space when opened.

▲ Large wardrobe units are also available in mobile versions.

## Equipment options

◀ A panel in the chosen decor is an elegant finish on top of the wardrobe.

▲ The integrated plastic valuables compartment fulfils the function of a small safe.

▲ Many options are available within a small space: shown here is a lockable valuables compartment combined with a clothes rail.

▲ The pull-out wardrobe clothes rail is practical and folds down when overloaded.

▲ The pull-out wire basket is particularly suitable for storing loose items, such as socks.

▲ The discreet knob handle is not suitable for attaching cords and so protects patients from strangulation.

## Manufactured to the highest quality

Contract furniture from Stieglmeyer is precision-made bespoke craftsmanship. Its high quality is made to last for a very long time. Discover a surprising variety of options that opens up new possibilities even for small rooms.

▲ Energy-saving LED lighting is available in several different versions.

▲ A cable aperture on the desk prevents tripping hazards and dust traps.

▼ Modern elegance: The permanently fixed room divider enhances all reception and communal spaces.

▲ Straight, even joints underline the high-quality appearance.

▲ Even at complex places in the layout, you can rest assured that the furniture will be fitted to a high standard of precision and accuracy.

◀ Mobile room dividers allow you to restructure living and communal spaces in next to no time.

▼ The edge protection on the mobile room dividers prevents damage from collisions.

▼ The radiator cover with a faux leather seat and integrated air vents creates a seating area with a pleasant temperature and prevents inadvertent contact with the hot radiator.

## Lock systems

Valuables and personal belongings can be stowed away practically and safely in our furniture.

- 1 Magnetic door lock
- 2 Deposit lock with key
- 3 Profile cylinder lock with key
- 4 "Push to open" with furniture knob and lock
- 5 Electronic deposit lock with keycard
- 6 Case lock with key
- 7 "Push to open" without lock
- 8 Padlock with key

1 Magnetic door lock

2 Deposit lock with key

3 Profile cylinder lock with key

4 "Push to open" with furniture knob and key

5 Electronic deposit lock with keycard

6 Case lock with key

7 "Push to open" without lock

8 Padlock with key

# Refrigerators

Refrigerators for the storage of medicines or for private storage of patients' food and drinks can be configured together with our furniture systems. Other designs are also possible in addition to the models shown.

▲ The refrigerator with a glass front for medicines allows you to keep a watchful eye at any time.

▲ The refrigerator with a towing door hinge fits discreetly into any cabinet combination.

▼ Electronic temperature monitoring helps to keep medicines in perfect condition.

▼ Clearly arranged compartments facilitate the storage of sensitive substances.

## ESSENTIALLY BETTER

### Safety in every respect

There are clear directives and regulations that must be observed on the wards. These also include safety-relevant issues such as cooling and closure, which must be taken into account in the design right from the outset.

### Cooled and monitored

Lockable medicine refrigerators can be installed at your request. Electronic temperature monitoring provides a means to document unbroken cold chains in line with legal requirements.

▼ The ventilation integrated in the base fits seamlessly into the cabinet ensemble.

Custodians of values  
Shapers of the future

## STIEGELMEYERGROUP

### Custodians of values

Our company was founded in Herford in 1900 and is still a family-run enterprise today. Respect and a sense of responsibility towards our customers, employees and partners form the basis for our day-to-day work. Based on these values and our many years of experience, we offer our customers all over the world high-quality products, solutions and services to meet the needs of the care and healthcare sectors.

### Shapers of the future

In order to cope with rapid changes in the care and healthcare sectors, we develop all our products ourselves. Creating innovations and visions of what care will be like in future are the goals we pursue. We maintain regular contact with our customers in order to support them in their daily tasks. Implementing tomorrow's trends today is a successful tradition of ours.
