For a more pleasant life –
care furniture from Stiegelmeyer

Care products from Stiegelmeyer have been developed to make everyday life in senior residences and nursery homes more comfortable. Their modern technical standards and homelike ambience give people in need of care a pleasant feeling of comfort and safety. At the same time they strongly support the care staff in their daily routine.

Stiegelmeyer’s care branch is developing system solutions for care and rehabilitation. Beds and care chairs, bedside cabinets, cupboards, armchairs and tables can be combined to perfectly suit a large variety of requirements. The beds’ safety sides and height adjustment ranges fulfill the occupants’ individual needs. The same applies for the big choice of headboards and décors.

The Stiegelmeyer service department Assist accompanies the life cycle of the furniture from purchase to installation and maintenance. Our experts help you quickly and efficiently with any questions.

Our care furniture is manufactured at Nordhausen in the German state of Thuringia. The employees process only high quality materials by using sophisticated equipment. Stiegelmeyer attaches great importance to an environmentally friendly production.

Provide maximum comfort to the occupants of your care facility at a very good price-performance ratio.
