

Bedside cabinets

Aparto

The modular bedside cabinet family

From floor level beds to individual care heights – Aparto bedside cabinets are always optimal companions. They adapt to any height, offer a high level of comfort to residents with different needs and support carer.

Drawers, slide-out table, overbed table, attractive wood decors – the modular Aparto family fulfils every wish.

With the Aparto brevo, it is now possible to fit a height-adjustable overbed table to a low bedside cabinet, which opens up new possibilities in everyday life.

Combino

The all-rounder

ESSENTIALLY BETTER

STIEGELMEYER

For modern care – beds, bedside cabinets and more

Stieglmeyer beds and furniture enhance day to day life in nursing homes. With their modern technology and homelike appearance, they provide comfort and safety to people in need of care. They also ease the work of carers.

The Stieglmeyer nursing home division develops solutions for rehabilitation and care. Beds and transport chairs, bedside cabinets, cupboards, chairs and tables can be combined to create a perfectly matching set. The range of functions of the different care beds fulfils the individual needs of the residents. The large choice of headboards, footboards and decors has suitable furnishing styles for all.

Stieglmeyer's service goes hand in hand with the life cycle of furniture – from purchase through installation to maintenance and servicing. Do not hesitate to contact our experts for fast, competent assistance with any questions you may have.

Offer the residents of your care facility maximum comfort at an competitive price.
