

ESSENTIALLY BETTER

Headboards, footboards and decors

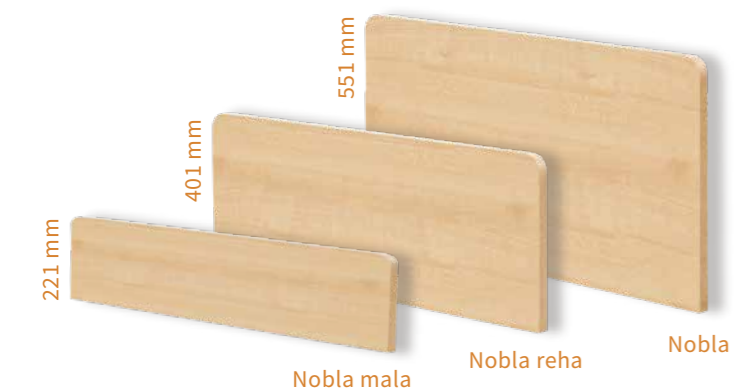

Pleasing forms and colours for your care beds

Headboards and footboards – personalised charm for our care beds

For many residents, the care bed is a home in which they spend most of their time. So having an appealing bed is important to them. Stieglmeyer headboards and footboards offer numerous options for tailoring care beds to individual tastes. Elegant straight lines or pleasing curves create an individual look. Handle bars, in different forms, make it easier to move the bed and give the resident support when standing up in the room.

Nobla – the elegant headboard in 3 sizes

Our Nobla head/footboard is the ideal choice for those who prefer an elegant look. It comes in three heights: The tall Nobla is particularly opulent, and the medium-height Nobla reha, when used as a footboard, offers the resident protection as well as an unobstructed view of the room. The low-height Nobla mala exudes the flair of a modern futon bed.

Decors and upholstery – Colours for every interior

The colour of the care bed can play an important role. It should appeal to the resident, fit in with the colour concept and interior design and, if necessary, also be easily recognisable for people with cognitive impairments. Stieglmeyer's wood decors and fixed upholstery offer a very large selection. It ranges from the neutral white of the Chalk decor through to warm wood tones, natural shades, and radiant colours and distinctive patterns.

Lito and Lito reha

The subtle, curved shape of the Lito has an elegant, classic look. The harmony of the headboard and footboard is not disrupted by any unnecessary elements. Lito blends well with any furnishing style. Lito reha, the lower version, appears even more discreet, allowing the resident a free view into the room or through the window.

Nobla

Clear right angles, playfully rounded at the corners – Nobla represents subtle elegance and comfort. This headboard or footboard also makes a fine impression in combination with high-quality textile or leather Softcovers. The residential home bed Carino – pictured here – transforms optically into a comfortable sofa during the day with Nobla head and footboards.

Homelike elegance

Elegant upholstery for our Nobla range of head and footboards

Beds with cosily upholstered surrounds have long been a standard option in the private sector – the success of box spring beds proves this. In care homes, too, upholstery can significantly increase well-being and make residents feel more at home. The high-quality fabrics and faux leathers in the Stiegmeyer collection are ideal for daily use. They are durable, easy to care for and very attractive. With the help of the Vario Safe system, upholstered headboards,

footboards and panels can also be effortlessly removed and replaced if, for example, a new resident has different requirements.

Upholstery is available for all the headboards and footboards of the Nobla series as well as for the side panels of the Vario Safe system.

Attractive design

Elegant upholstery with optional quilting for our Nobla head/footboard range

A pleasant atmosphere like that of a good hotel room or a private bedroom enhances the positive effect of rehabilitation. The optional upholstered surrounds of our Elvido vervo and Libra care beds have a part to play here. And with an elegant quilting pattern, they look even cosier.

There are two patterns to choose from: The box design, with horizontal and vertical lines, has a modern look and radiates fresh en-

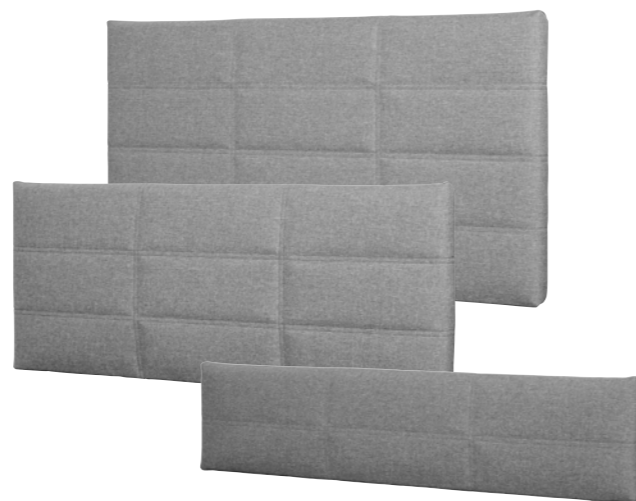

ergy. The classic diamond design is both stylish and homelike. The wide ranging colours in Stieglmeyer's fabric collection bring out the best of both patterns and can be combined to suit every taste. With the help of the Vario Safe system, the headboards, footboards and panels can be replaced whenever a new look is desired.

Two quilted patterns are available:

Diamond design

Diamond patterns on furniture and clothing are often associated with a British lifestyle. They look both classy and cosy.

Box design

The rectangular stitching of the box design looks lively and energetic – the best prerequisites for rehabilitation.

Headboard: Nobla, footboard: Nobla reha

▲ The classic diamond design creates a distinguished atmosphere.

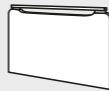

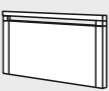

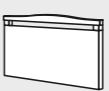

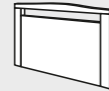

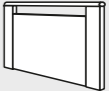

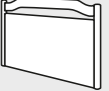

Headboard: Nobla, footboard: Nobla reha

▲ The box design has a modern, clear-cut look.

Custodians of values Shapers of the future

STIEGELMEYERGROUP

Custodians of values

Our company was founded in Herford in 1900 and is still a family-run enterprise today. Respect and a sense of responsibility towards our customers, employees and partners form the basis for our day-to-day work. Based on these values and our many years of experience, we offer our customers all over the world high-quality products, solutions and services to meet the needs of the care and healthcare sectors.

Shapers of the future

In order to cope with rapid changes in the care and healthcare sectors, we develop all our products ourselves. Creating innovations and visions of what care will be like in future are the goals we pursue. We maintain regular contact with our customers in order to support them in their daily tasks. Implementing tomorrow's trends today is a successful tradition of ours.
