

*Lippe range
and Relax bed surround*

The combination that offers more
comfort and support

Lippe range

New quality of life in your own familiar bed

The changeover to a care bed can be a very positive experience as people get older or become ill. Persons in need of care and their relatives finally receive the support they require. Yet, for many people, this is a difficult step to take. Moving out of your familiar bed is like taking a step into the unknown – and frequently means a spatial separation from your partner. But supposing it's not necessary to give up your beloved bedroom suite?

This very scenario prompted Burmeier to develop its Lippe range. Our Lippe bed inserts are merely attached to an existing bed frame and so remain largely invisible just like a normal slatted frame. But they still offer all the advantages of an electric bed. Find out on the following pages how our Lippe can improve your family's quality of life.

Lippe – always a good choice

You can purchase a Lippe bed insert at any time as a private user and thus have the necessary support in place for the future. Or you can choose the Lippe as a care bed on prescription, if your care needs have been recognised.

Clever

What advantages does a Burmeier bed offer for you?

Look for the *My advantage* symbol in the brochure and let our satisfied customers convince you.

Lippe IV

Enjoy the comfort
and perfect support

Snug and secure

“I need a care bed, but I want to see as few technical details as possible in my bedroom. The Lippe bed insert makes this possible.”

Otto Peters
Retiree

Lippe IV washable

If your medical supply retailer provides you with a Lippe IV with metal slats, this is a variant of the Lippe IV washable model. It can be reprocessed in a washing machine and stands for particularly thorough hygiene.

Do you have a single bed or double bed with standard dimensions? Then the Lippe IV is the right choice for you. Its electrically adjustable mattress base provides a number of health-promoting positions for restful sleep and enjoyable leisure. Its adjustable height lets you get up at the most ergonomic height every time. As a caring relative, you can set the bed to its highest position so you can work at a back-friendly height.

The advantages for you

- **Four-section mattress base** with comfortable sprung wooden slats
- Adjustable backrest and leg rests for **restful sleep** and to enjoy reading or watching TV
- **Strong construction** – suitable even for heavier persons
- 10cm-extendable mattress retainer bars for greater **flexibility when choosing a mattress**
- Handset with lockable functions for **safe and easy operation**

Mattress retainer bars hold the mattress securely in place. Their width can be increased by 10 cm. Mattress retainer bars can be detached.

A fifth mattress retainer bar at the foot end gives the mattress additional support.

If a reverse-Trendelenburg position is set, the lower leg rest remains in a comfortable horizontal position. If necessary, it can be lowered in several stages.

The 24-volt drive system is particularly safe and dependable. Electrical testing is normally not required.

The four-section mattress base is fully electrically adjustable and is also suitable for heavier persons of up to 200 kg.

Adapter sleeves are available on both sides for a patient lifting pole and a reading lamp.

The handset is designed for easy and intuitive use. Individual bed functions can be locked if necessary to prevent injuries.

The electronic switch mode power supply unit is easy to connect via a plug-in connection.

Four sturdy feet with floor-level adjustment screws give the bed insert stability on any floor.

Lippe IV

All advantages at a glance

Lippe 120/140

More room for sleep and leisure

If you have enjoyed the comfort of a more generous bed width for many years, you might feel more restricted in a standard bed. That is why Lippe 120/140 bed inserts are also available for wider bed surrounds. With a mattress base width of 120 and/or 140 cm, persons in need of care have plenty of space and can continue to enjoy their usual quality of life without any restrictions.

Persons requiring care with a body weight of over 200 kg will find in the Lippe 120/140 a comfortable alternative to a heavy-duty bed. The robust bed inserts are authorised for loads of up to 250 kg. Even tall persons will find ample space thanks to the optional 20cm-bed extension.

The advantages for you

- Large height adjustment range, from 29 to 74 cm, for **fall prevention** and **ergonomic care**
- **Sturdy** and **hygienic metal slats**, for high weights of up to 250 kg
- Floor-level adjustment screws for **excellent stability** despite uneven floors
- Particularly **economical** and **safe** 24-volt drive system

Room to move

“I have always enjoyed the space to spread myself out in my 1.40-metre-wide futon bed. With the Lippe 140, I can still take advantage of the space this offers – but can also enjoy the assistance I need.”

Pasquale Rossi
Retiree

Lippe range

One idea – many convincing advantages

The quality of a Lippe bed insert can be seen from the attention to detail. With its space-saving chassis and the many dimensions to choose from, it fits in practically every bed. It ensures excellent stability at all times: thanks to the floor-level adjustment screws included as standard, there's no need to worry about your bed being unsteady, even if you live in an old building with sloping floors.

The bed inserts are operated with a clear, intuitive handset which allows even people with declining abilities to operate it independently. If a particular mattress base position is not advisable medically, following an injury perhaps, relatives and carers can selectively lock the handset.

▲ Five mattress retainer bars hold the mattress securely in place.

▲ Serial feet with floor-level adjustment screws ensure excellent stability.

◀ The selectively lockable handset is extremely easy to use and offers maximum safety.

▲ Lippe models up to 140 cm wide can be combined with the Relax bed surround.

▲ Adapter sleeves are available on both sides for a patient lifting pole and a reading lamp.

▲ The height adjustment mechanism rests on ball bearings and functions safely, gently and quietly.

▲ The switch mode power supply unit is easy to connect to the bed insert via a power socket.

Twosome

“By combining the Relax with the Lippe, we have ended up with our ideal double bed – and it’s a perfect match for our colour scheme.”

Laura and Otto Peters
Married couple

Has our Lippe won you over, but you are really yearning for a completely new bed? Then discover our Relax bed surround. With its clear lines and stylish decors, it appears classically elegant while at the same time incorporating the latest furniture trends. The Relax is the ideal bed surround for the Lippe or other mattress bases.

It is also suitable for those looking for a double bed that offers technical assistance. Two bed surrounds can be combined to create a double bed. Each person can then choose a mattress base to suit their individual needs.

In addition to its Lippe range, Burmeier also offers a bed frame with motorised adjustment. It is available as a 90 x 200 cm or 100 x 200 cm frame. Instead of standing on the floor, this frame fixes easily onto the supports provided in the Relax surround.

The advantages for you

- Pleasant height of 45 cm (excluding mattress) at the side for **getting in and out safely and conveniently**
- Low-height footboard for a **contemporary look** and an unobstructed view of the room
- Two Relax beds can be joined together with bolts to make a **double bed**

Relax

The homelike bed surround

Stylish

“I started off by using the Lippe in my old bed – but then I felt like a change. With the contemporary look of the Relax, I feel completely at home again in my bedroom.”

Attractive
wood decors for
every interior –
fast availability
from stock!

▲ Royal Maple

▲ Natural Beech

▲ Havana Cherry

▲ Bella Noce Choco

Choose which style of Relax suits you and your bedroom best from a choice of four attractive wood decors. Enjoy the pale gold of Royal Maple, savour the subtle Beech, revel in smoky Havana Cherry or feast on the rich Bella Noce Choco.

If you use your Relax in combination with a Lippe bed insert, you can conceal its feet behind a stylish grey bed surround.

▲ The optional electrically-adjustable motorised frame ensures a high level of comfort.

▲ Relax bed surrounds can be combined to create a double bed.

Extensive accessories

Are you looking for more comfort, safety and support?
Enhance your bed with protective safety sides, begin your day effortlessly and let a lifting pole take the strain or bask in the pleasant light of our reading lamp.

- ◀ The convenient Pleto side table has a practical two-piece tabletop. The larger tabletop can be tilted to provide a comfortable bookrest and magazine stand.

- ◀ With its 2.40m-extension cable, the handset for the Lippe IV can be used anywhere within the room.

- ◀ The adjustable feet make it possible to raise the bed insert by up to 7 cm – ideal for adapting it to fit taller bed surrounds.

- ◀ A 20-cm **bed extension** is available for the Lippe 120/140.

- ◀ The **adjustable safety side** for the Lippe IV can be raised and lowered effortlessly. The Varus low-height bedside cabinet is the ideal companion for the Lippe and Relax.

- ◀ The clip-on **Lippe safety side** remains securely in place and offers constant protection on one side of the bed.

- ◀ With its **widening rails** of 5 cm per side, the Lippe IV mattress base can be extended in size.

◀ The **Sola reading lamp** radiates a pleasant light and generates very little heat. It can be fitted to the patient lifting pole or inserted in the connection sleeve.

◀ Thanks to the **19-cm mattress retainer bars**, even thick anti-decubitus mattresses can be used.

Find out more about helpful accessories from our website and our accessories leaflet. All you have to do is scan the QR code.

◀ The **standing aid** provides a secure hold when getting out of bed.

◀ The **transmitter holder** for the handset has a flexible support and is always in a handy position on the Lippe IV.

Flexible

“Accessories can be fitted at any time when the wish or need for added support arises.”

Julia Roth
Care service employee

Always up to the job

I particularly like working with beds from Burmeier since the ergonomic height adjustment avoids back strain. Thanks to flexible accessories, we can always find a way to cater to your personal situation and your changing needs. This leaves enough energy and **time for social interaction**, which is important to me during my work.

Any questions?

Impressed

“Grandpa’s bed is really cool. You can make it go up and down and it even helps him get up.”

Julia Peters
Granddaughter
